### 11h30 Introduction and welcome

The co-Chairs will welcome participants and outline the main objectives for the second day of the meeting.

### 11h35 Item 3. Proposal to develop a basic manual of procedures and presentation of preliminary estimates of members' contributions to the TOSSD Task Force

After almost four years of operations, the TOSSD Task Force has come a long way in developing the TOSSD framework in an agile and effective way without the need for undue formalism in its modes of working. However, in recent months, the Secretariat has observed that the Task Force would benefit from further formalisation of a few basic rules and procedures to complement the existing terms of reference. It therefore proposes developing such a document. **Members will be invited to comment on this proposal as well as discuss some of the topics to be covered in such a manual.**

At the last meeting, the Secretariat was asked to propose estimates of members' possible contributions to the functioning of the Task Force, by providers or type of providers. **The Secretariat will present preliminary options based on an analysis of several other initiatives with a wide membership.**
