TOSSD framework

What is TOSSD?

Key milestones

2017

The International TOSSD Task Force was established.

2020

The UN StatCom mandated a **UN working group** to develop an indicator to measure development support, taking into account the TOSSD methodology.

First regular data collection round was carried out.

2022

TOSSD is adopted as a **data source** in the new version of the indicator **17.3.1**.

2nd TOSSD dataset (on 2020 activities) is disseminated.

2015

A political anchorage for TOSSD: the international community committed to “open, inclusive and transparent discussions” on the new measure of TOSSD in the **Addis Ababa Action Agenda** (paragraph 55) in July 2015

2019

A first version of the **TOSSD methodology** was developed.

A TOSSD Data Survey was carried out.

2021

Launch of **tossd.org** and **TOSSD data visualisation tool**.

First TOSSD dataset on 2019 activities is released.

What is TOSSD?

Who are the main users of TOSSD?

Beneficiary countries:

central and line ministries,
national statistical offices,
central banks

**Civil society
organisations, think
tanks, academia, data
analysts**

Development partners:

bilateral and multilateral
organisations

Specific communities

focusing on development
finance, refugees, Islamic
finance, South-South co-
operation

Media/Journalists

What is TOSSD?

TOSSD data architecture

A. Identification data

1. Reporting year
2. Provider country/institution
3. Provider agency
4. Provider project ID number
5. TOSSD ID Number

See the Reporting Instructions, the TOSSD data form and the code lists

<https://www.tossd.org/docs/reporting-instructions.pdf>

<https://www.tossd.org/docs/data-form.xls>

<https://www.tossd.org/docs/tossd-codes.xlsx>

B. Basic data

6. TOSSD recipient
7. Project title
8. Project description
9. External link
10a. SDG focus
10b. Keywords

11. Sector
12. Channel of delivery
13. Channel name
14. Modality
15. Financial instrument
16. Financing arrangement
17. Framework of collaboration
18. TOSSD Pillar

C. Volume data

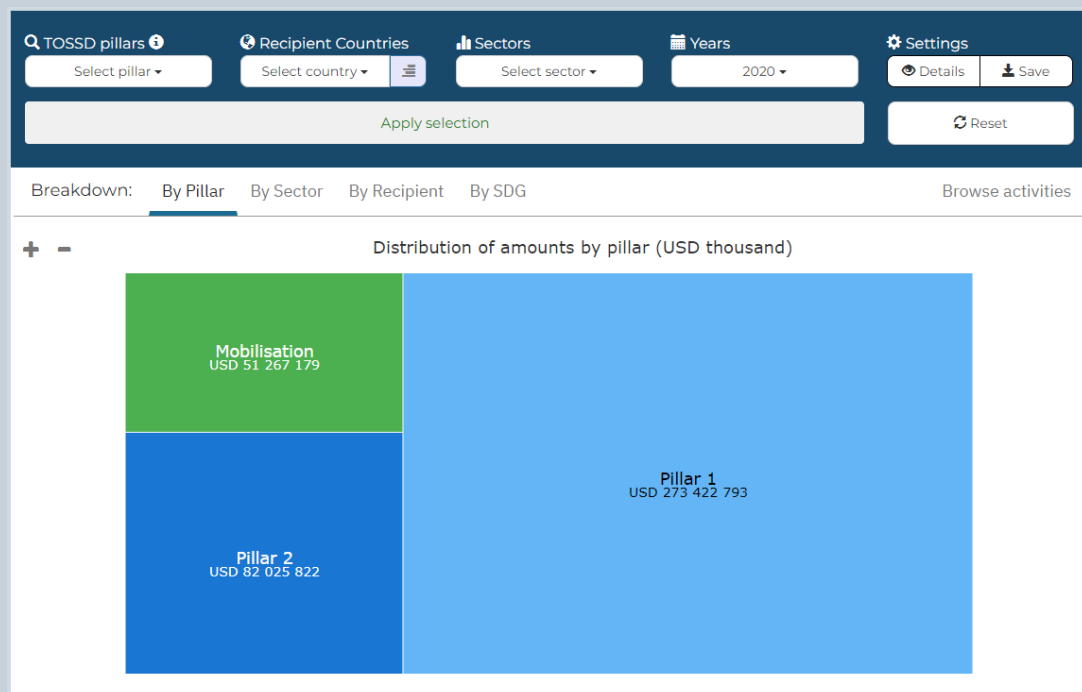

19. Currency
20. Amount committed
21. Amount disbursed
22. Reflows to the provider
23. Amount mobilised

<i>For in-kind technical co-operation only</i>
24. Salary cost
<i>For loans only</i>
25. Concessionality
26. Maturity
<i>For mobilisation only</i>
27. Leveraging mechanism
28. Origin of the funds mobilised
29. SSC-specific information

What is TOSSD?

Data visualisation tool: TOSSD.online

All TOSSD data are published under the TOSSD data visualisation tool: <https://tossd.online/>

2

Why is TOSSD needed?

Why is TOSSD needed?

Long-term trends

The financial landscape for sustainable development evolves and changes drastically. TOSSD aims to reflect this complex landscape better than existing international statistics on development finance. It includes:

More actors

More instruments

Greater focus on sustainability

SUSTAINABLE
DEVELOPMENT
GOALS

Why is TOSSD needed?

TOSSD Pillar II captures resources at the regional and global levels in support of International Public Goods

TOSSD captures regional and global activities with substantial benefits to developing countries

To valorise all aspects of the 2030 Agenda, for example work generating global norms that benefit all countries

International Public Goods are key enablers of sustainable development for all, including TOSSD-eligible countries

To make some of the domestic action for global sustainable development more visible

A game changer in 2022: TOSSD now a data source for the SDGs Indicator Framework

SDG target 17.3

“Mobilize additional financial resources for developing countries from multiple sources”

The UN has adopted TOSSD as a data source for the SDGs indicator 17.3.1. :

- a. Official sustainable development grants
- b. Official concessional sustainable development loans,
- c. Official non-concessional sustainable development loans,
- d. Foreign direct investment
- e. Mobilised private finance (MPF) on an experimental basis, and
- f. Private grants.

<https://unstats.un.org/sdgs/metadata/?Text=&Goal=17&Target=17.3>

G20 and TOSSD

TOSSD is included in the G20 “Financing for Sustainable Development Framework” since 2020.

<https://www.tossd.org/docs/FSD%20-%20Final%20Draft.pdf>

This G20 FSD framework indicates that “(...) **Total Official Support for Sustainable Development can help increase the efficiency and effectiveness of delivery of financing and encourage improvements in quality, execution, and tracking of progress**”

All G20 members (except Argentina) are engaged with TOSSD in at least one way: through reporting data, and/or by being part of the International TOSSD Task Force.

Benefits for recipients and providers of development co-operation

1. Resource mobilisation
2. Budget processes and development planning
3. Donor co-ordination
4. SDG monitoring (17.3.1)
5. Development effectiveness
6. Improvement of public policies and data analyses
7. Accountability and inclusiveness
8. Monitoring of international commitments
9. Balance of payments
10. Communications

>>>>> Second block of the presentation >>>>>

Why is TOSSD needed?

TOSSD as essential for INFFs

Definition of Integrated National Financing Framework (INFF): A comprehensive framework **mapping** the landscape for financing sustainable development at country-level and laying out a **financing strategy** to implement targeted policies and reforms in order to achieve the SDGs.

TOSSD is a critical input for the assessment and diagnostics phase.

For more information, see the INFF website: <https://inff.org/>

Questions & answers

A stylized illustration of a person in silhouette holding a large orange megaphone. The megaphone is pointed towards a speech bubble.

Any questions?

3

International TOSSD Task Force

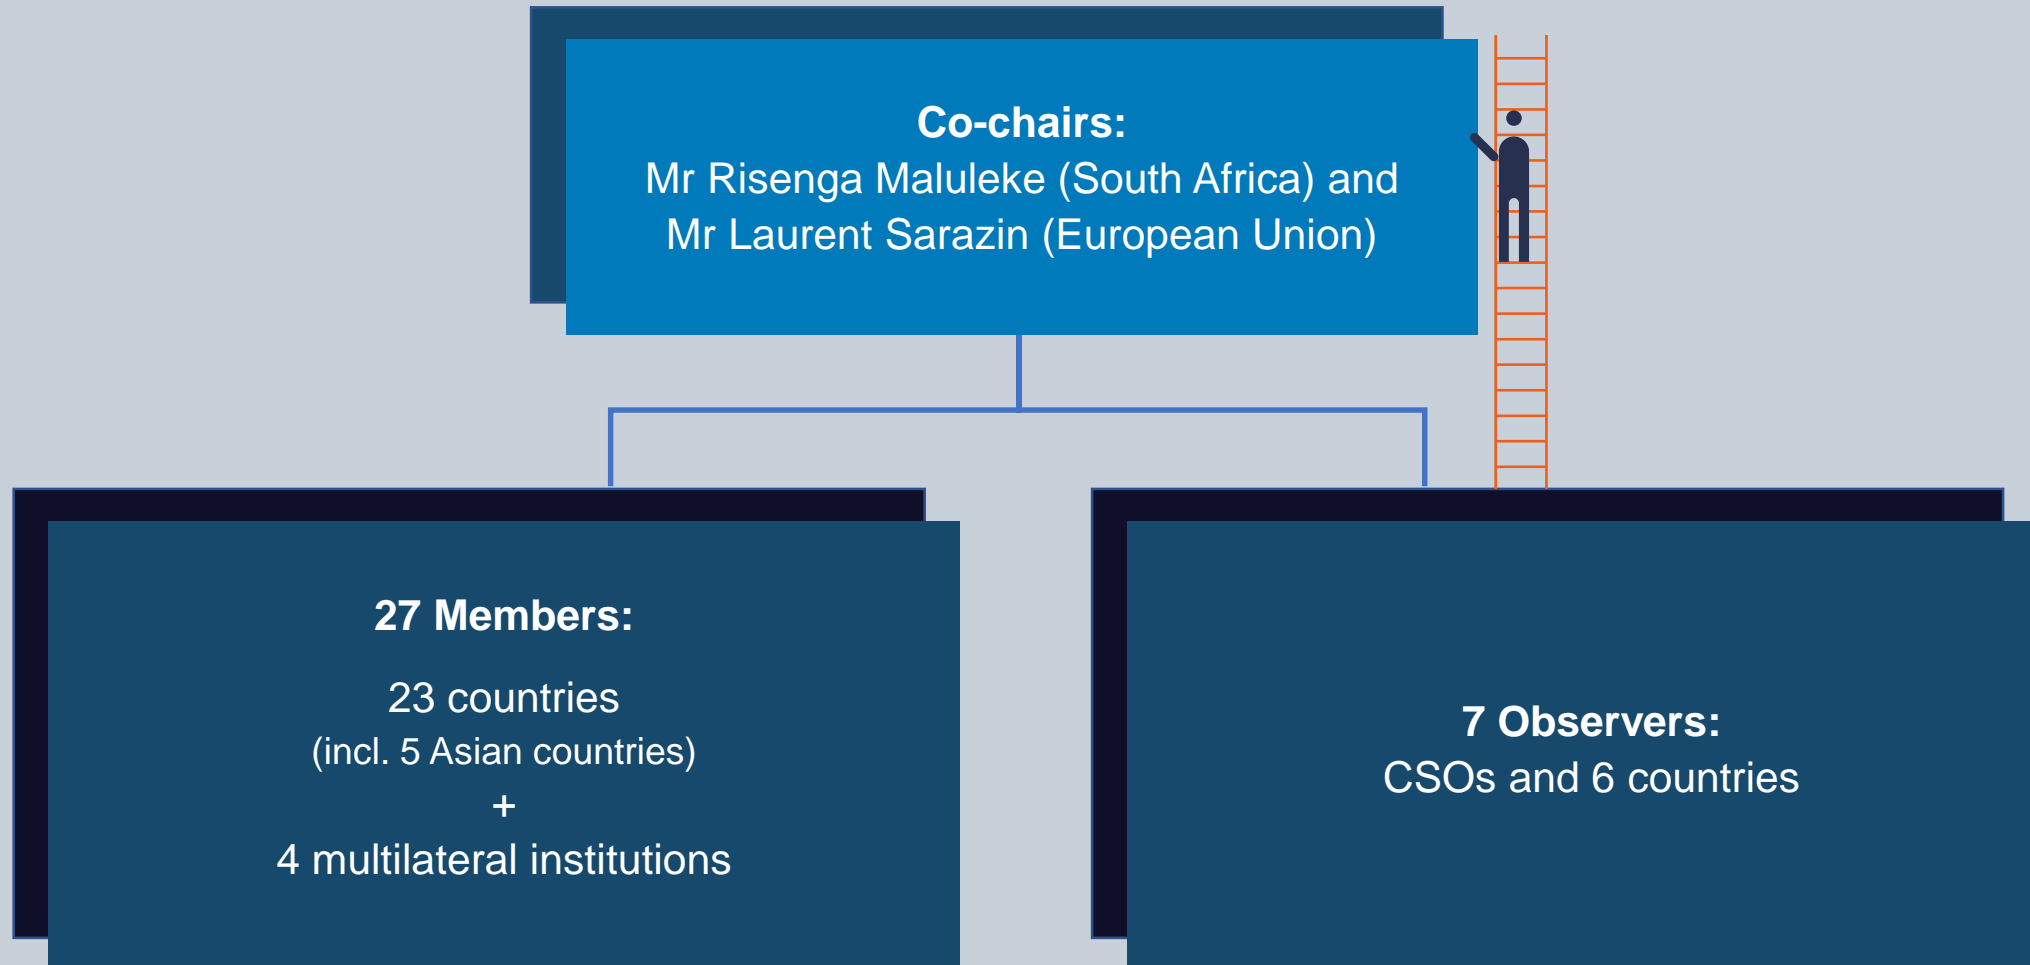

(Addis Ababa – paragraph 55)

Transparency:
All documents are posted on the TOSSD website to allow for “open, inclusive and transparent” discussions.

The main output of the Task Force:
The TOSSD Reporting Instructions = the TOSSD statistical methodology.

Task Force membership

Questions & answers

Any questions?

④

TOSSD data collections: 2020 figures

Considerable expansion in the 2nd data collection round

99 respondents

of which...

44 countries

55 multilateral organisations

Including UN entities
and MDBs

First-time data from 10 countries and multilateral entities

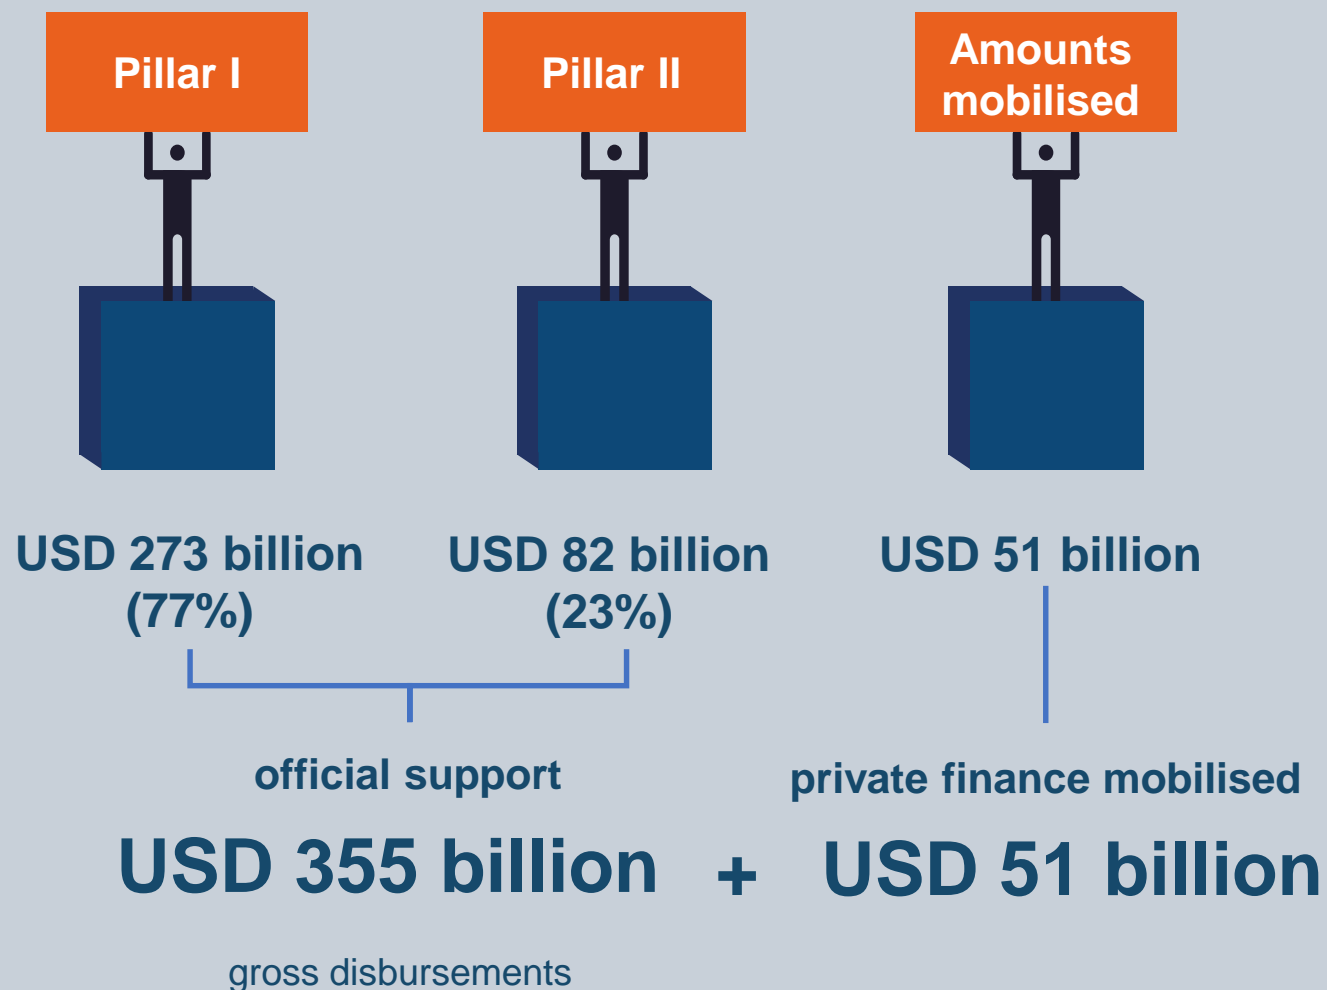

- Brazil
- Thailand
- BSTDB
- CABEI
- EFSD
- Interpol
- NADB
- UNOCT
- WTO - ITC
- UN ESCWA

Continued statistical engagement in 2022

TOSSD figures for 2020

TOSSD totals for 2020

Data available at <https://tossd.online/>

The figures include

- USD 91 billion of estimated data gaps derived from CRS for non respondents (included only at aggregated level)

The figures do not include

- Flows only reported on a commitment basis e.g. EIB pillar II activities for USD 22 billion (included in the downloadable dataset on tossd.online).

Part of the mobilisation data are confidential

- MDBs' data on mobilisation are treated as confidential pending agreement on the appropriate level of aggregation in public disclosure.

For comparison:

- TOSSD in 2019 amounted to USD 292 billion.

3. Pillar I – More transparency to recipient countries

- TOSSD considerably enhanced the availability of information on support to Malaysia.

176 additional activities reported

+ 41% in volume terms (compared to DAC statistics on development finance)

DAC statistics:
USD 86 m.

TOSSD:
USD 121 m.

Examples of previously unreported activities

South-South co-operation:

- In-kind technical co-operation activities by Indonesia

Triangular co-operation:

- Technical co-operation by Brazil

Activities beyond ODA for DAC members:

- Defence & Public Order and Safety activities by Canada & France
- International Nonproliferation Export Control Program by United States

Non-core resources by multilateral organisations:

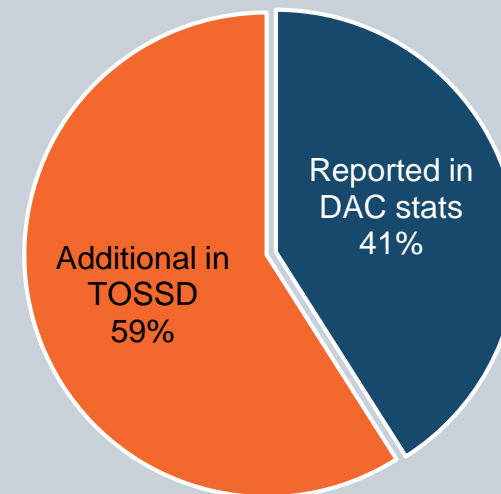

- Protecting the rights of migrant domestic workers and plantation workers by ILO
- Outflows from ADB trust funds
- Health workforce capacity by UNFPA
- Sustainable Models of Quality Education by UNICEF

Pillar II - Global and regional expenditures (financing for international public goods and global challenges)

49% of the financing for IPGs captured in TOSSD is additional *

TOSSD disbursements in Pillar II
USD 82 billion

TOSSD commitments in Pillar II
USD 112 billion

* Compared to OECD statistics on development finance (CRS)

** Excludes activities reported on a commitment basis only (USD 22 commitments from EIB).

Pillar I – South-South co-operation

**2020 TOSSD:
South-South co-operation**
12 reporters*
3 602 activities
USD 21.7 billion**

(*) Brazil, the Caribbean Development Bank, Chile, the Central American Bank for Economic Integration, Costa Rica, the Development Bank of Latin America, Indonesia, Kazakhstan, the Islamic Development Bank, Nigeria, Thailand and Turkey.

(**) Of which USD 11.8 billion relating to activities reported on a commitment basis only (Latin America Development Bank, IFAD, TrC by Denmark).

Highlights of TOSSD reporting by Indonesia:

- **60+ activities on South-South co-operation and Islamic finance on 2019-20**
 - Training, workshops, expertise
 - Scholarships
 - Humanitarian assistance
 - Project loans
- **Activities with countries all over the world**
 - SE Asia, Oceania, Africa, Americas and also other regions

Questions & answers

A stylized illustration of a person in silhouette, holding a large orange megaphone. The megaphone is pointed towards a speech bubble.

Any questions?

TOSSD

**as a Measurement Standard
Enhancing Transparency**

ADB

ASIAN DEVELOPMENT BANK

TOSSD as a Measurement Standard Enhancing Transparency and Supporting ADB's Mission

Agnes Surry

Senior Planning and Policy Specialist
Strategy, Policy and Partnerships Department

Why is Transparency Important to ADB?

Under Strategy 2030, ADB will sustain its efforts to eradicate extreme poverty and achieve a prosperous, inclusive, resilient, and sustainable Asia and the Pacific.

ADB is committed to empowering people by providing them with the information they need to participate in the bank's development activities.

The Access to Information Policy (AIP) establishes the principles and rules for ADB to be transparent and accountable to the people it serves.

ADB Supports Several Transparency initiatives – IATI /2020 ATI

*For reasons of data availability, we were only able to review the transparency of this development bank's sovereign (government-backed) portfolio and not its private investments. The Inter-American Development Bank (IDB) only manages the IDB Group's sovereign-backed lending. IDB Invest, a separate entity within the group, manages its private sector portfolio.

† For this development bank, data for both its sovereign and non-sovereign portfolios were available and we reviewed both.

TOSSD data reporting

The SDG focus

Assessment of sustainability is made on a case-by-case basis.

Contentious areas and activities:

- Non-renewable and nuclear energy
- Mineral resources and mining – gas and oil
- Humanitarian assistance to local communities with an objective to create a more amicable environment to **carry out military missions**
- Contributions to NGOs when their activity has a **primarily religious motive**
- Activities that reflect bilateral engagement and diplomacy not specific to SDGs such as **journalism exchange**
- Petrochemical industry

Such activities are mostly excluded by TOSSD data reporters.

In a few cases, however, these activities are retained in TOSSD, as they support sustainable development in the specific country context.

The TOSSD Task Force continues to discuss the operationalisation of sustainability in TOSSD.

Questions & answers

A stylized illustration of a person in silhouette, holding a large orange megaphone. The megaphone is pointed towards a speech bubble.

**Examples of data:
TOSSD.online**

Step 1

Select relevant filters (pillar, recipient country, sector, year).

The screenshot shows the TOSSD online data visualisation tool interface. The main heading is "Total Official Support for Sustainable Development (TOSSD)" with the subtitle "Data visualisation tool". Below this is a navigation bar with three tabs: "TOSSD.org main site", "Visualisation Tool" (which is active), and "About". Under the "Visualisation Tool" tab, there are four filter sections: "TOSSD pillars" with a "Select pillar" dropdown, "Recipient Countries" with a "Select country" dropdown, "Sectors" with a "Select sector" dropdown, and "Years" with a "Select year" dropdown. To the right of these filters is an "Action" dropdown menu with a gear icon. An orange callout box with an arrow points to the "Action" dropdown, containing the text "Click 'Action' to filter by country or region". Below the filter sections is a large grey button labeled "Apply selection". At the bottom, there is a "Repartition:" section with four options: "By Pillar" (which is selected), "By Sector", "By Recipient", and "By SDG". To the right of this section is a link that says "Browse activities". The TOSSD logo is in the bottom right corner.

About TOSSD data

TOSSD data are available for activities from 2019 onwards on this website.

TOSSD data show cross-border flows to developing countries and territories. Expenditures with substantial benefits to the recipient countries from the private sector are shown separately.

TOSSD also shows disbursements. Further details, e.g. on the providers and amounts committed, are available in the data downloads (see Browse Activities / Export Results)

TOSSD sector data are collected using either CRS or ISIC sector classifications. A mapping enables to display the data according to both classifications but please note that this is approximate as some sectors cannot be easily mapped.

Data presented only include data that comply with the TOSSD Reporting Instructions. As a consequence, these data may not reflect the entirety of a given provider's co-operation portfolio. In particular, activities in non-TOSSD eligible countries carried out by some providers in the framework of South-South Co-operation do not appear in the export feature of the TOSSD.online visualisation tool, nor in the total financial amounts displayed in the tool.

To know more about TOSSD classifications and methodology, please consult the [TOSSD Reporting Instructions](#) and the [TOSSD code list](#) available on [TOSSD.org](#).

What is TOSSD ?

The **Total Official Support for Sustainable Development – TOSSD** – is a new international statistical framework for monitoring official resources and private finance mobilised by official interventions in support of sustainable development of developing countries.

Data facts

USD 355
billion gross disbursements in
2020

TOSSD at a glance

Total Official Support for Sustainable Development (TOSSD) is a new international standard for measuring the full array of resources in support of the 2030 Agenda. It is designed to monitor all official resources flowing into developing countries for their sustainable development, but also private resources mobilised through official means. It also measures contributions to International Public Goods – up to now “invisible” in development finance statistics – that help countries reach their Sustainable Development Goals.

Using TOSSD for development planning

Use of TOSSD data for development planning

TOSSD data can be used to:

1

Better understand
the financing
landscape for a given
country and inform
the Integrated
National Financing
Frameworks

2

Compare countries

3

Provider coordination

Better understand the financing landscape for a given country

How to use TOSSD data

- Find detailed information for a given country.
- Identify possible financing gaps.

How to use TOSSD.online

1. Select relevant filters (Pillar, recipient country, sector, year)
2. Click on “Apply selection”
3. Select the data visualisation chart by pillar, sector (CRS or ISIC), recipient (chart or map), SDG goals and targets
4. Click on “Browse activities”
5. Click on “Export activities” and download in excel, pdf or xml
6. You are now ready to use and analyse TOSSD data!

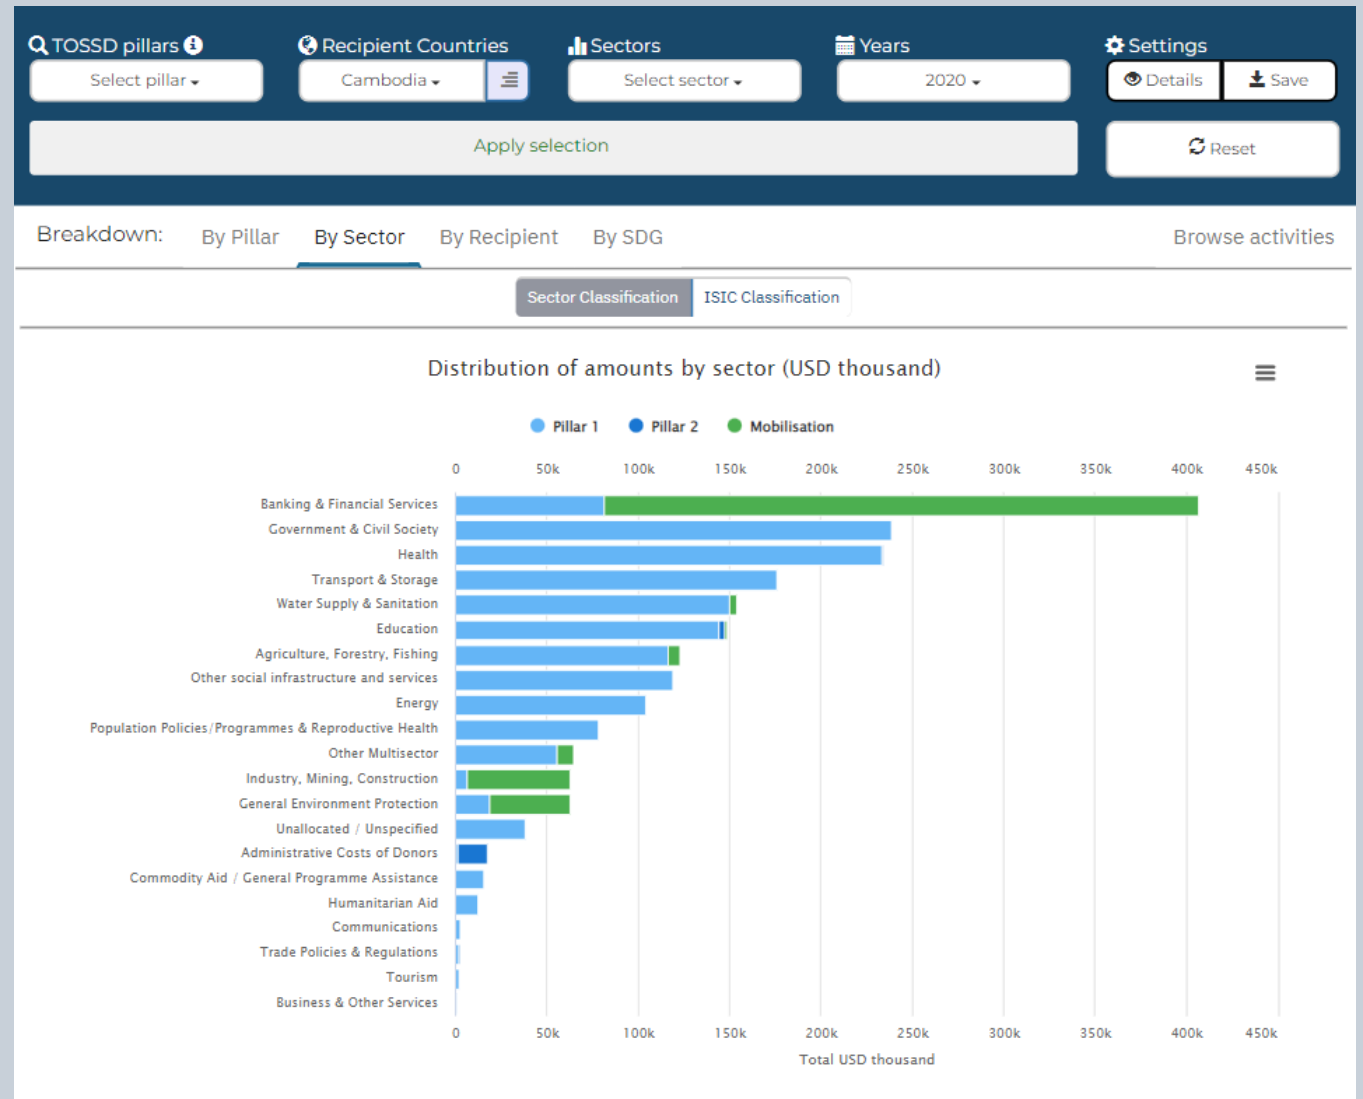

Development planning

Better understand the financing landscape for a given country and mobilise additional resources

Example: How to understand the financing landscape of a sector in Cambodia

1. Select relevant filters: all pillars, Cambodia as a recipient country, all sectors and all years.
2. Use the data visualisation to view the breakdown by sector to get an overview.

Outcome: more resources are targeted to business & financial services, government & civil society and health. If financing needs are also available at country level, TOSSD data can be used to carry out a financing gap analysis by sector.

Development planning

Better understand the financing landscape for a given country

Example: How to understand the financing landscape of a sector in Cambodia

- For more details, browse activities in the data visualisation tool, or export the results of your query, e.g. in Excel.

The screenshot shows the TOSSD data visualization tool interface. At the top, there are filters for TOSSD pillars, Recipient Countries (set to Cambodia), Sectors, and Years (set to 2020). There are buttons for 'Select pillar', 'Apply selection', 'Details', and 'Save'. Below the filters, there is a 'Breakdown' section with tabs for 'By Pillar', 'By Sector', 'By Recipient', and 'By SDG'. A 'Browse activities' button is highlighted with an orange box. Below the breakdown, there is a search bar and an 'Export results' button, also highlighted with an orange box. The main content area displays a table of results with columns for Recipient, Project title, Sector, SDG Focus, and Amount (USD K). The table shows 10 results for Cambodia, all related to Education. The last row is labeled 'TC AGGREGATED ACTIVITIES'.

Recipient	Project title	Sector	SDG Focus	Amount (USD K)
Cambodia	08 - Youth leadership and participation	Education	16.7	38.51
Cambodia	06 - Adolescents and youth skills and capabilities	Education	3.7	70.85
Cambodia	08 - Youth leadership and participation	Education	16.7	7.53
Cambodia	06 - Adolescents and youth skills and capabilities	Education	3.8	17.49

Development planning

Compare your country to others

How to use TOSSD data

- Compare your own development finance data with TOSSD data for other countries.
- Identify potential providers intervening in another country and that could support your country
- Identify how financing packages are put together (e.g. blended finance) or how specific instruments are used (e.g. in which sectors guarantees are used)
- Identify possible data gaps in your development finance statistics.
- Fill data gaps in your development finance statistics.

How to use TOSSD.online

1. Select relevant filters (pillar, recipient country, sector, year)
2. Click on “Apply selection”
3. Select the data visualisation chart by pillar, sector (CRS or ISIC), recipient (chart or map), SDG goals and targets
4. Click on “Browse activities”
5. Click on “Export activities” and download in excel, pdf or xml
6. You are now ready to use and analyse TOSSD data!

Coordination among providers

How to use TOSSD data

- Find out where, in which sectors and what type of projects providers are putting their efforts.
- Use this information to improve coordination across providers of development co-operation.

How to use TOSSD.online

1. Select relevant filters (pillar, recipient country, sector, year)
2. Click on “Apply selection”
3. Select the data visualisation chart by pillar, sector (CRS or ISIC), recipient (chart or map), SDG goals and targets
4. Click on “Browse activities”
5. Click on “Export activities” and download in excel, pdf or xml
6. You are now ready to use and analyse TOSSD data!

Development planning

Donor coordination

How can TOSSD data support donor coordination in Viet Nam in the government & civil society sector?

1. Select relevant filters: all pillars, Viet Nam as recipient country, all sectors and all years.
2. Use the data visualisation to view the breakdown by e.g. SDG and sector to get an overview.

Findings: Donors especially contribute to SDG goals 8 and 7. In terms of sectors, donors focus on transport & storage and energy. Government & civil society does not seem to belong to the main priorities.

Questions & answers

A stylized illustration of a person in silhouette, holding a large orange megaphone. The megaphone is pointed towards a speech bubble.

Any questions?

9

Next steps and key points

Next steps – A new governance entity for TOSSD

Governance:

- The inclusion of TOSSD as a data source for the 17.3.1 indicator calls for a more global and formal governance for TOSSD.
- A new governance arrangement is required to keep an efficient mode of working. Transition: early 2024.

Financing:

- While the OECD has covered the costs of TOSSD for the last 5 years, members of the future entity are invited to make a yearly contribution to maintain TOSSD.

Data:

- Provision of data to the UN in the context of 17.3.1.
- Third data collection round ongoing

Summary of key points

TOSSD is a new **international statistical measure** that provides a complete picture of all official resources and private finance mobilised by official interventions in support of sustainable development and the SDGs.

- **cross-border flows (Pillar I)**
and
- **Contributions at the regional
and global levels and to

- Co-ordination among providers

Summary of key points

The TOSSD Task Force may evolve into a new inclusive governance entity in 2024

An inclusive **International Task Force** develops and maintains the TOSSD methodology.

The third round of **data collection** is currently ongoing.

**Data on 2019 and 2020
are available online at:
www.tossd.online.**

In March 2022, TOSSD was recognized as a data source for the indicator 17.3.1 on the measurement of development support.

European Union

Pilot studies

The TOSSD Task Force Secretariat is carrying out a series of country and thematic pilot studies to test the TOSSD methodology and make sure that the framework addresses the information needs of recipient countries.

What is TOSSD?

Main differences between TOSSD and ODA

	TOSSD	ODA
Objective of the measure	Measuring resources in support of sustainable development	Measuring donor effort
Key eligibility criterion of the measure	Sustainable development	Economic development and welfare of developing countries
Main focus	Recipient	Provider
Scope of flows covered	Officially-supported flows: official flows and private finance mobilised through official interventions	Official flows
	Concessional and non-concessional	Concessional
Measurement	Cash flow	Grant equivalent
Target countries	OECD DAC List of ODA Recipients and other countries on an opt-in basis	OECD DAC List of ODA Recipients
Reporters	Ambition: All providers	OECD DAC and some non-DAC countries
Governance arrangements	Ambition: driven by the international community with strong UN involvement	OECD DAC-driven
